

TOPIC: Elimination of DSCP General and Industrial Blanket Purchase Agreements

MEMORANDUM FOR CURRENT DLA BPA HOLDERS

On October 14, 2003 a notice was posted on the DLA Procurement Gateway regarding our future intention to transition from the blanket purchase agreement (BPA) based Small Purchase Electronic Data Exchange (SPEDE) system to the fully competitive Procurement Automated Contract Evaluation (PACE) solicitation and award system.

Commencing November 30, 2003, DSCP General and Industrial will remove the following federal stock classes from the BPA program. Additional federal stock classes will be removed approximately every 30 days until such time that the DSCP General and Industrial BPA program is eliminated.

The proposed schedule is attached.

Notices concerning changes to the above schedule will be posted on the DLA Procurement Gateway web site <http://progate.daps.dla.mil/home/>

Reference is made to the terms and conditions of the DSCP General & Industrial Simplified Purchase Agreement at:
http://www.dscp.dla.mil/contract/spa_1999_Rev_No6.pdf

Solicitations with a "T" in the ninth position of the solicitation number, i.e., SP0500-04-T-XXXX, are candidates for automated award by PACE. Items excluded from the PACE system are Surplus, Flight Safety Critical, Life Support, Source Control, Qualified Product List (QPL), those that require First Article or other special testing, acquisitions under the Foreign Military Sales (FMS) program and Section 8(a), Federal Prison Industries (FPI), and Javits-Wagner-O'Day (JWOD) items. All DSCP excluded items will be evaluated and awarded manually. Qualified quotes must be submitted electronically either on the Internet Quoting System (IQS) or through Electronic Data Interface (EDI) by the return date/time specified in the solicitation. Instructions on how to use IQS as well as the technical requirements and registration information are located at <http://iqs1.dscp.dla.mil/>

Once a user successfully completes the user profile setup for the Procurement Gateway, an administrator will assign a User ID and Password, usually within 24-48 hrs. Users are then notified via email concerning the activation of their account. This email will include the User ID and Password. This User ID and Password can be used for the Procurement Gateway, the Internet Quoting System (IQS), and the Automated Best Value System (ABVS).

We appreciate the support of the small business community under the SPEDE system. Such support by the small business community has helped enable DLA to provide effective service to warfighters. It is important to note that the PACE system

incorporates the same small business set-aside rules as the BPA program. Items exceeding \$2500 that we solicit through PACE are required to be set-aside for small businesses (also, please note that, by law, set-asides do not apply to any requirement of \$2500 or less). In fact, the PACE system will enable small businesses to compete consistently for our requirements because acquisitions through PACE are competed every time. This change is not intended to reduce the participation of small, women-owned, or minority small businesses in our acquisition process. DLA has always been a leader supporting socio-economic programs. For example, DLA awarded 38.8 percent of its total purchase dollars (\$14.8 Billion) to small businesses in Fiscal Year 2002 and 39.7 percent of its total purchases dollars (\$15.1 Billion) in Fiscal Year 2003 (through August). We will continue to support the small business community as we move toward this enterprise solution to achieve even greater effectiveness and efficiency in accomplishing our mission.

For general questions you can contact the Gateway Help Desk at 215-697-6257/6396. You may also send email to admin_support@pgmail.daps.dla.mil
